August 2016

Dear Sisters and Brothers:

The statistics from The American Cancer Society for 2016 is 1,685,210 new cases of cancer. 595,690 Americans will die of cancer and that is 1,630 people per day.

Alarming facts about this dreaded disease. But according to The American Cancer Society 86% of all cancers are diagnosed in adults 50 years of age or older.

Good news: The death rate has dropped 23% since 1991. Every day we are getting new research studies and new clinical trials. They may not find a cure in our life time but maybe our grand children or great grandchildren. It will come!!

The Cancer Committee would like to say thank you all for your donations to this very worthy cause. Please, when you are sending donations make one of them to the Cancer Fund and send to me, Elizabeth Harms, 1110 S.W. 42nd Ave., Plantation, FL 33317.

Fraternally,

Elizabeth Harms
State Chairman-Cancer
